## BELIEVES DRAFT CONTAINS MERIT

Holland Foreign Minister Declares in Favor of Plan for League of Nations.

## SCHEME NOT PERFECT

Netherlands Government Considers Its Duty Lies in Saluting Coming of Society of Powers With Great Satisfaction.

Amsterdam, March 26.—Jonkheer Karnebeek, the foreign minister, made the following statement regarding the league of nations:

"The Netherlands government, having received an invitation to attend the peace conference, while it is discussing the league of nations, Dr. Iodder, a member of the high court of appeals, and Prof. W. J. M. Van Eysinga of Leyden university, have been sent to Paris in order to co-operate with Dr. John London and explain the views of their government in this matter.

"I hold the opinion that the present draft for a league of nations really deserves attention as a fair introductory step to a period in the relations between nations, opening quite a new channel for the development of the mutual interests of humanity.

"However, I am one of those who think the equality of the rights of nations, one of the most important means for increasing the confidence of the smaller powers in a league of nations, and I feel that in this direction the plan does not give entire satisfaction. Nevertheless, I am much inclined to believe that the present scheme of the league of nations will in no way hinder its future improvement and development on a larger scale.

"At the same time it might be considered the duty of the Netherlands, backed by their tradition of prospering the work of international understanding and international law, to salute the coming of a league of nations generally with great satisfaction and without too much criticism."

## SPENCER SUPPORTS LEAGUE

Missouri Senator Says Covenant Is in Interest of Peace.

Jefferson City, Mo., March 26.—United States Senator Selden P. Spencer of St. Louis, Republican, in addressing a joint session of the Legislature on the league of nations covenant said certain provisions of the covenant, in conception and purpose would be "the greatest achievement in the interest of peace which the world has ever seen."

Senator Spencer said he approached the subject of the league "with every inclination in its favor," and said the covenant invites "both sympathetic and co-operative consideration."

## STAGE GIANT IS MURDERED

Shooting Is Said to Have Been Result of a Quarrel.

Milwaukee, March 26.—George Bell, 25, the seven-foot, 11 inch, colored man of a musical production playing at a local theater, was shot and instantly killed at a rooming house.

Mazie Ealy, 25, who traveled with the actor, was arrested and locked up by local detectives in connection with the crime. The shooting is said to have been the result of a quarrel.

Bell weighed 375 pounds.

## REVOLT SPREADS IN EGYPT

British Government Compelled to Stop Demobilization.

London, March 26.—Defending the military service bill in the House of Commons, Winston Spencer Churchill, secretary for war, declared that the whole of Egypt was in virtual state of insurrection. The position was so dangerous, he added, that the government had to appeal to men on the point of demobilization to return and save their comrades from being murdered.

## SPAIN UNDER MARTIAL LAW

Government Takes Drastic Steps to Restore Order.

London, March 26.—Constitutional guarantees have been suspended throughout Spain, a Central News dispatch from Madrid says. The Spanish government has exhausted its efforts at conciliation, and the dispatch adds, is determined to act firmly to maintain order. The government has agreed to withdraw its resignation.

Strike Rumor Denied.

Basle, Switzerland, March 26.—A rumor that decision had been reached to call a general strike in Berlin at the end of this month, is denied by the Freiheit, according to a dispatch from the German capital.

Jimmy Duffy Is K. O'd.

Montreal, March 26.—Irish Patsy Cline of Brooklyn, knocked out Jimmy Duffy of Lockport, N. Y., in the second round of a 10-round match. Cline scored seven knockdowns.

## General Peace Treaty Now Being Planned

BY FRED S. FERGUSON  
(Staff Correspondent, United Press)

Paris, March 26.—A treaty embracing all the enemy countries instead of a preliminary pact with Germany is now being planned in an effort to speed up the peace settlement, it was learned from authoritative sources today. The best guess at when such a treaty would be ready for submission to the enemy powers by calling in their delegates is May 1. This plan completely upsets the program along which the peace conference has been working for the past month. It is not yet certain the new scheme will be carried out, but some of the delegates point out that various questions are so inter-related, that some time will be saved in the long run by tying all treaties together.

## Immediate Peace Being Urged Today

BY WM. PHILLIP SIMMS  
(Staff Correspondent, United Press)

Paris, March 26.—Immediate peace along broad lines with the settlement of details afterward, through the league of nations, was being urged by many delegates who have been galvanized into action by the westward spread of Bolshevism. The next step, it was pointed out, would be to furnish concrete support of the new or enlarged nations of Europe, whose security the allies are in honor bound to maintain. The belief was expressed today that expeditionary forces will not be necessary or advisable.

Regulations being prepared by the corporation to cover advances will provide for the lending of sums up to \$50,000,000 to any individual firm, corporation or export association, probably at 5% per cent for a maximum of five years, on adequate collateral.

The matter of the collateral security to be accepted remains to be worked out, but indications are that paper representing merchandise engaged in the export processes will be acceptable. Collateral to the extent of 125 per cent of the loan probably will be required.

Scores of informal applications for information or for advances have been received from individual exporting firms or representatives of the export associations being organized under the Webb act, the war finance corporation reported today. Preparations for making the loans will be rushed.

Reports indicate that exporters are planning to make extensive use of the government foreign trade fund as soon as the regulations are completed and the corporation is ready to accept formal applications.

## FUND FOR EXPORTERS

Government Preparing to Loan One Billion Dollars.

Nature of Collateral Security Required Remains to Be Worked Out.

Washington, March 26.—The government's billion dollar fund for financing foreign trade soon will be opened to American exporters through loans from the war finance corporation.

Regulations being prepared by the corporation to cover advances will provide for the lending of sums up to \$50,000,000 to any individual firm, corporation or export association, probably at 5% per cent for a maximum of five years, on adequate collateral.

The matter of the collateral security to be accepted remains to be worked out, but indications are that paper representing merchandise engaged in the export processes will be acceptable. Collateral to the extent of 125 per cent of the loan probably will be required.

## FOE TOOK 4,765 YANKEES

Revised Figures on Number of Americans Missing.

Washington, March 26.—The Central powers captured 4,765 American prisoners during the war, according to revised figures issued by the war department. Of these, 4,376 have been reported released, 23 are dead and records of the Central powers are being checked to find the 156 names unaccounted for.

## KILLS TONNAGE TAX BILL

Minnesota House Rejects Measure by Vote of 64 to 61.

St. Paul, March 26.—The house of representatives disposed of the tonnage tax issue for this session.

The bill providing for a tax of 10 per cent on the net profits of mining companies failed of passage by a vote of 64 to 61. It needed 66 to pass.

The vote came only after four hours of oratory.

## BANK IS ROBBED OF \$20,000

Three Men Make Daylight Raid on Des Moines Institution.

Des Moines, March 26.—Three men held up the Iowa State bank in the heart of the business district in broad daylight and escaped with more than \$20,000 in cash.

## Widely Known Mason Dead.

Rochester, N. Y., March 26.—Dr. Frederick R. Smith, one of the most widely known Masons in the nation, died of pneumonia, aged 49 years. Dr. Smith was elected imperial potente A.O.N.M.S. in Atlantic City in 1914 and served a year.

## Dies at Age of 115 Years.

Albuquerque, N. M., March 26.—Agapito Madrid of Luz Canyon, N. M., died at the age of 115 years, according to reports received here. His son claimed he had never been ill.

Jimmy Duffy Is K. O'd.

Montreal, March 26.—Irish Patsy Cline of Brooklyn, knocked out Jimmy Duffy of Lockport, N. Y., in the second round of a 10-round match.

Cline scored seven knockdowns.

Last of American Casualty Tables Are Being Prepared.

Washington, March 26.—The last of the real American casualty lists in the world war now are being published in the daily papers and within the next few days the lists will contain practically only the names of those who have died or have been injured since the armistice.

The names of the few given as killed in action are those of men for whom extended investigation had been necessary to establish proof of death.

Here are some of the I. W. W.'s

who have just been released on parole from Ellis Island where they had been held waiting deportations. There were thirty-one in all and only twelve were paroled after having been detained in prison in various parts of the country for eighteen months. The others are to be sent to their native lands.

Arrive in England and Will Be Manned by U. S. Sailors.

London, March 26.—The German steamers Cleveland and Patricia, which have been allotted to the United States, have arrived at Cows.

They will be manned by American sailors and will be used for transporting American troops to the United States.

LIEUTENANT AND CADET LOSE THEIR LIVES IN AIRPLANE ACCIDENT.

Lawton, Okla., March 26.—Second Lieut. Harley C. Hyde, Columbia, Mo., and Cadet William M. Crabtree, James town, N. D., were instantly killed when their plane crashed, one mile southeast of here. Both came to Post Field last week from Taliaferro Field, Texas.

NORTH DAKOTAN IS KILLED

Lieutenant and Cadet Lose Their Lives in Airplane Accident.

Lawton, Okla., March 26.—Second Lieut. Harley C. Hyde, Columbia, Mo., and Cadet William M. Crabtree, James town, N. D., were instantly killed when their plane crashed, one mile southeast of here. Both came to Post Field last week from Taliaferro Field, Texas.

ENVOS AGREE ON AMENDMENT

American Peace Delegates to Present Provision to Safeguard Monroe Doctrine.

MILITARY COMMISSION

Permanent Body of Officers Is One Amendment Proposed—League Commission Also Talks Arbitration Matters.

Paris, March 26.—It is understood that the American delegation has definitely agreed upon the amendment it will offer to Article 10 of the covenant of the League of Nations to safeguard the Monroe Doctrine.

The amendment provides that agreements under the covenant shall not be construed as an infringement upon the principles of international policies heretofore generally recognized.

DOMESTIC MATTERS BARRED.

Paris, March 26.—The League of Nations commission has adopted an amendment excluding all domestic matters from the league's jurisdiction, thus protecting America's immigration policy.

PERMANENT MILITARY BODY.

Paris, March 26.—This official statement on the last session of the League of Nations commission has been issued:

The League of Nations commission considered amendments to Articles 9 and 14 so that two-thirds of the draft of the covenant now have been examined.

Article 9 relates to a permanent commission to advise on military and naval matters. An amendment to create a military staff, as advocated by the French, would affect this section.

Article 14 relates to a permanent court to decide questions recognized as suitable for arbitration. Amendments regarding what may be arbitrated would be applicable to this section.

AUSTRIA IS Affected.

Paris, March 26.—Conditions in Hungary seem to have affected Germany Austria. Advice to the American peace conference delegates from private agents in Vienna indicate the existence of a threatening state of affairs there.

One of these agents, who has just come from Vienna, reports that even the date has been fixed for some time in April for the transformation of the existing government into a soviet government, which will co-operate or merge with the government of the Hungarian soviet.

Yanks to Luxembourg.

Coblenz, March 26.—Word was received at the headquarters of General Dieckman here from general headquarters that the duchy of Luxembourg will be included April 1 in the area under the control of the American Third Army, the jurisdiction of which will extend to the French frontier of 1914.

General Cronkhite is expected to take up headquarters at Luxembourg soon, that city also being the general headquarters of Marshal Foch. The control of this additional territory will give the Third Army the Third, Fourth and Sixth Corps, with nine divisions.

TESTIFIES IN PARDON CASE

Attorney Denies Securing Money to Give Iowa Governor.

Des Moines, March 26.—George Clark, an Ida Grove attorney, testified at the Iowa house judiciary committee's investigation of the Rathbun pardon case that when he received \$5,000 from William Rathbun for obtaining the pardon for his son, Ernest, "nothing was said about what he was to do with the money."

The senior Rathbun in an affidavit introduced by Attorney General Haver at last Friday's session of the committee asserted he gave Clark the \$5,000 in currency with the expressed understanding that it was to go to Governor W. L. Harding for the pardon.

HUN SHIPS TO CARRY YANKS

Arrive in England and Will Be Manned by U. S. Sailors.

London, March 26.—The German steamers Cleveland and Patricia, which have been allotted to the United States, have arrived at Cows.

They will be manned by American sailors and will be used for transporting American troops to the United States.

NORTH DAKOTAN IS KILLED

Lieutenant and Cadet Lose Their Lives in Airplane Accident.

Lawton, Okla., March 26.—Second Lieut. Harley C. Hyde, Columbia, Mo., and Cadet William M. Crabtree, James town, N. D., were instantly killed when their plane crashed, one mile southeast of here. Both came to Post Field last week from Taliaferro Field, Texas.

LISTS NEARING COMPLETION

Last of American Casualty Tables Are Being Prepared.

This is the first real vacation the doctor has permitted himself in his years of intensive work in Brainerd.

The Rosko Brothers garage is doing a big business in International tractors. Yesterday three 10-20 Titans were shipped to out of town customers. A large 15-30 tractor will be on display this week. This size is used for heavy road work and threshing. Threshermen have found that a tractor saves the work of a tanker and other labor, saves cutting wood or hauling water and is therefore more economical to operate and easier to move around than a steam thresher. Kerosene is used for fuel and gasoline as a starter.

The young fellows want plenty of jazz, pep and ginger in their clothes this spring, and bless his buoyant, young heart, he can get just what he wants by ordering a Royal Tailored suit at Oberst's. 11

At the Best Today

Do you like melodrama? The real old Drury Lane brand filled to the brim with stirring action, suspense and genuine thrill? Who doesn't? If you do, you should not fail to see "Sporting Life," Maurice Tourneur's superb picturization of the famous Drury Lane success of twenty years ago which will be shown at the Best theatre today.

Just as in the days when the vivid melodramas thrilled young and old alike, the picturizations of the more famous of these thrillers, is rousing popular interest to a high degree of intensity. When Mr. Tourneur began work on "Sporting Life" as his first offering as an independent producer, he gave orders that no expense should be spared to make the photoplay a distinct work of art, and that his wisdom was demonstrated on its presentation in a New York theatre on September 15, 1918, when it was acclaimed one of the best photoplays made in years.

## The Delicacy of Touch

Have you thought of the quick response obtained when playing Kimball Grand Pianos—that the most delicate touch whispers your musical thoughts—and that the wonderful contrasts and climaxes are most effective? Adelina Patti, in the height of her career, and other world-famous artists have owned and praised Kimball Pianos.

For these and other reasons the Kimball is "The Artists' Favorite."

## IS YOUR BLOOD STARVING FOR WANT OF IRON?

Iron Is Red Blood Food—It Helps to Put Strength and Energy into the Veins of Men and Roses into the Cheeks of Women. Why Nuxated Iron so Quickly Builds Up Weak, Nervous, Run-down People.

Thousands of men and women are impairing their constitutions, laying themselves open to illness and literally losing their grip on health, simply because their blood is thinning out and possibly starving through lack of iron. Take a pint of iron in the Nuxated Iron, make a man a plumper and mental weakling, nervous, irritable, easily fatigued, but it utterly robs him of the virile force, that stamina and strength of will which are so essential to success and power in the struggle of life. It may also transform a beautiful, well-tempered woman into one who is cross, nervous and irritable.

Iron is absolutely essential to enable your blood to transport the food you eat into muscular tissue and bone. It is through iron in the red coloring matter of the blood that life-giving oxygen enters the body. It is no strength, vitality and endurance to consume the iron which stand savage storms. Contrary to general opinion, lack of iron in the blood does not necessarily mean you do not have enough blood, but it means your blood is not of the right quality. To make your blood red and strong, should people there is nothing better than ergodic iron—Nuxated Iron. Unlike the older inorganic iron products it is easily assimilated, does not irritate the teeth, and the iron is more easily absorbed. Nuxated Iron is now being used by over three million people annually, and the manufacturers guarantee successful and entirely satisfactory results to every purchaser or they will refund your money if dispensed by all good druggists.

Need of a Trained Public Health Nurse in the County—Other Matters Discussed

County reports for the Sixth District are now coming in. These are among the last under the war organization although an earnest request comes from the National Director of the Council of Defense that Community Councils be kept up.

A three-piece orchestra played. The hall was nicely decorated for the occasion. The party was really a joint affair on the part of the Blue Lodge and the Eastern Star. The ladies of the Eastern Star served a delicious lunch, buffet style, of ice cream, cake, etc.

Cards were played during the evening by those who did not dance.

The program given was a meritorious one, including two piano solos by Mrs. Jennie Mysen-Lind, two violin solos by Miss Fern Hilt, a duet by Mrs. George D. LaBar and S. F. Alderman, with piano accompaniment played by Mrs. Walter F. Wieland.

An address by Rev. Hans Wolner was not given, owing to the unavoidable absence of the popular minister.

## Women Will Form League of Voters

(By United Press)

St. Louis, March 26—A league of women voters to speed the final enfranchisement of the women of the United States and to remove all legal discriminations against women, was one of the many interesting subjects discussed at the National American Woman Suffrage convention here today. The sessions will last until Saturday, March 29. Delegates from every state in the Union are in attendance.

The jubilee convention, which commemorates the fiftieth anniversary of the granting of suffrage to women in Wyoming in 1869, was attended by some of the best known suffrage leaders. In 1869 the National Suffrage Association was formed, to be followed by the American Suffrage Association. In 1890 they were merged into the National American Woman Suffrage Association. For fifty years the organization has been continuous.

Thousands of girls have signified their wish to continue working on the land, and the authorities have gladly acceded to their request, for the man—or woman—behind the plow is deemed the most active and remunerative asset of the state.

As the most fitting memorial to the half century of campaigns, women of the country were invited to send delegates to a Woman Voters' Conference. Upon this foundation the convention hopes to build a New National Voters' league.

Each fully enfranchised State was

represented in the league Conference, including Wyoming, Colorado, Idaho, Utah, Washington, California, Oregon, Montana, Nevada, Arizona, Kansas, New York, Michigan, South Dakota and Oklahoma. Each state sent fifty delegates.

Some of the questions raised in general at the discussion were: "Why does the United States lag behind other nations in extending votes to its women?" "By what policy can the enfranchisement of women be most speedily brought to final triumph?" "Are women voters treat-

## DR. THABES AS MAYOR

To perform the duties of the office of mayor efficiently and creditably, the incumbent must be one who has the time and disposition to give his thoughts and attention to matters of public interest and civic pride. This frequently involves considerable time and expense for which he cannot be reimbursed from public funds, and would be a hardship on most citizens. Dr. Thabes, in the past, as an enterprising public spirited citizen, has always given of his time and means in community betterment and the advancement of the city along progressive lines, and his election as the chief executive of the city would no doubt increase his opportunity to serve the city in this manner. It is for this reason that the Dispatch believes his election as mayor would best serve the city's interests, and hopes to see him elected.

## WATER TESTS THOROUGH

It is most interesting to read of the favorable results and tests made at Boom Lake by the Water and Light Board. All doubts should now be dispelled about lack of water in an underground supply. The tests were thorough, comprehensive, and commented upon most favorably by a number of engineers. As publishers of a newspaper we do not pretend to know anything about "water level," "glacial drift," "porosity," and such other terms, but we are perfectly contented to accept what is presented or offered as being 100% proper. Anyone offering adverse criticism will have to search with a fine-toothed comb for flaws—if there are any. The super-critical will probably find no place here this time. Even if there should be some one shortcoming or defect, the thing as a whole stacks up well.

Three very fine citizens are candidates for city treasurer, Geo. Berggreen, Richard Isle and D. A. Peterson. Mr. Berggreen and Mr. Peterson are independent candidates and Mr. Isle was nominated by representatives of organized labor. Mr. Peterson is the present incumbent, and Mr. Berggreen was elected to the office at the last election, and served for some months when he resigned to go into the service during the war. Mr. Berggreen's friends feel that he should be returned to the office that he relinquished to serve his country. No matter who is elected the city will be efficiently served.

In another column we print the proposed charter amendments to be voted on at the city election April 1st. These amendments are printed officially in the weekly, but we print them today in the daily for the information of the voters. One provides for the recall of city officers and the other provides for the election of city attorney by vote of the people instead of the council as at present.

## PLANS REMAIN UNCHANGED

Speedy Return of American Soldiers Will Continue.

St. Louis, March 26.—The Hungarian situation will not clog war department plans for speedy return of American troops from France.

General Peyton C. March, chief of staff, declared here:

"We plan to have 915,000 soldiers home by July 1. There will be no delay on account of the Hungarian developments."

## PROPOSED AMENDMENTS TO THE CITY CHARTER OF THE CITY OF BRAINERD

Victoria Cross Winners  
Winnipeg, March 26—Winnipeg men won ten of the 67 Canadian decorations with the Victoria Cross—the greatest of all British war honors.

Of these ten men only five remain alive. Two were killed in action, two died from wounds on the battlefield while the fifth after recovering from dangerous wounds came back to Canada and died from influenza-pneumonia at the general hospital here.

## For Americanization

St. Paul, March 26—So great has the need for education and Americanization become that the University of Minnesota has enlarged a correspondence study department under the general extension division.

"It was once thought that to gain knowledge in any systematic manner one must put himself under the direct personal supervision of a teacher" says the University department. "Many still think this and some give up all effort to self improvement if they cannot attend schools. It is to meet just such needs as theirs that the correspondence section of the university has been developed."

The work at present includes preparatory and college grade courses and vocational courses in business and engineering subjects. The preparatory courses are of high school grade. The college courses enable one to work for credit toward a degree from the University. As many as half the credits required may be earned in this way. Students who seek University credit must be able to satisfy the entrance requirements of the University but if credit is not desired one may register for these courses. Many of them are of general value dealing as they do with economics, history, political science, sociology and other subjects of present interest. The vocational courses are practical in their nature and make constant application of the principles they teach. These as well as the other type of courses will be increased in number and scope as the demand grows.

## Public Reception

St. Paul, March 26—Having officially assumed the archbishopric of St. Paul diocese of the Catholic church, Justin Dowling tonight will be given a public reception at the auditorium. Thousands are expected to greet the new archbishop. Laymen and clergy of the church from throughout the northwest will attend. Elaborate decorations and entertainment has been arranged.

## Festive Cocktail Will be a Home Made Luxury

(By United Press)

New York, March 26.—With the passing of "Old John Barleycorn," many and varied are the substitutes offered for something with a "kick in it." The humble raisin is coming into its own in the home-made mixing of the festive cocktail.

One W. S. Rogers, a sponsor for the "dissolved cocktail," is said to be organizing a company to make compressed cocktails in a laboratory in San Jose, Cal.

At no far distant date the thirsty one will be able to take a plug out of his pocket, much the same as the village tobacco-chewer, whittle off a comfortable section, drop it into a tumblerful of water, stir it a bit, and drink to his heart's content. At least that's what the knowing ones are saying. Besides, they say there are other ways.

## Special Private Stock

Mix two pounds of hops, a peck of malt and five gallon of water. Steep for three or four hours. Then drain off water and put in keg. Cover the kegs and malt with five gallons more water and heat, but don't boil. Dissolve in this two pounds of brown and three of white sugar. Allow to cool to 50 to 90 degrees and add three yeast cakes; put all in a barrel and let it stand for 96 hours. Then bung it up and set away for at least a week.

## Just a Snifter

Put two raisins in a bottle of near-beer. Let it sit a while.

## The Festive Cocktail

A pound of raisins, a pound of brown sugar and a gallon of water make up the only necessary ingredients of a "guaranteed" cocktail substitute, according to some. The concoction should be brought to a simmer, placed in a wooden vessel and allowed to "work" for fifteen days.

## Some "Kick Here"

Put two quarts of white corn in a keg of cider. Allow to ferment. The result is astounding and in keeping with the best traditions of Kentucky distillery products.

thereto Section 9 A. to read as follows:

SECTION 9 A. The proposed amendments to Sections 5, 8 and 9 of the Charter of the City of Brainerd shall take effect and be in force on the first Tuesday after the first Monday in May next following the regular city election held after the adoption of this amendment and the amendments herein named, but nominations shall be received prior to the next regular city election for the office of city attorney within the time and in the manner provided by law for other elective offices of the city and at said election said office of city attorney shall be voted upon the same as the other elective offices of said city and the person elected shall take office at the same time following said election as the other elective officers.

SECTION 20 A. Any elective municipal officer, whether elected by popular vote or appointed to fill a vacancy, may be removed at any time by the electors qualified to vote for a successor of such officer. The procedure to effect a removal of such elective municipal officer shall be as follows:

SECTION 20 B. A petition signed by electors entitled to vote for a successor of the officer sought to be removed equal in number to at least twenty-five per centum of the entire vote for all candidates for the office, the incumbent of which is sought to be removed, cast at the last preceding regular municipal election, demanding an election of a successor of the person sought to be removed, shall be addressed to the council and presented to the City Clerk, provided that said petition shall contain a general statement of the ground for which the removal is sought.

SECTION 20 C. The signatures to the petition need not all be appended to one paper, but each signer shall add to his signature his place of residence, giving the street and number. One of the signers to each such paper shall make oath before an officer competent to administer oaths, that the statements therein made are true, and that each signature to the paper appended is the genuine signature of the person whose name purports to be thereunto subscribed. Within ten days from the date of said presentation of such petition the city clerk shall examine and from the poll lists of the last regular municipal election ascertain whether or not said petition is signed by the requisite number of qualified electors, and if necessary, the council shall allow him extra help for that purpose, and he shall attach to said petition his certificate showing the result of said examination. If, by the clerk's certificate, the petition is shown to be insufficient, it may be amended within ten days from the date of said certificate. The clerk shall, within ten days after such amendment, make like examination of the amended petition, and if his certificate shall show the same to be insufficient it shall be returned to the person presenting the same without prejudice, however, to the presentation and filing of a new petition to the same effect.

SECTION 20 D. If the petition shall be found to be sufficient the clerk shall transmit the same to the council without delay. If the petition shall be found to be sufficient the city council shall order, and fix a date for holding the said election, not less than thirty days nor more than forty days from the date of the clerk's certificate to the council that a sufficient petition is filed. The city council shall make or cause to be made publication of notice, and all arrangements for holding such election, provided, that in the published call for the election there shall be printed in not more than 200 words the reason for demanding the recall of the officer as set forth in the recall petition, and in not more than 200 words the officer may justify his course in office; and said election shall be conducted, returned, and the result thereof declared, in all respects, as are other city elections.

SECTION 20 E. The officer sought to be removed shall be deemed a candidate, and, unless he resigns his name shall be printed on the ballot without nomination. The nomination of other candidates shall be the same as the nomination of candidates for any regular city election for the office of which the incumbent is sought to be removed. The officer sought to be removed shall continue in office until the canvass of the returns of such recall election by the council, and if he fail at such election to receive the highest number of votes, he shall be deemed removed from office and the candidate at such election receiving the highest number of votes shall be deemed his successor in office for the unexpired term thereof. Such successful candidate, except the recalled officer, shall qualify within ten days thereafter or the said office shall be deemed vacant. Said recalled officer shall yield said office on demand to his successor.

SECTION 20 F. No person who has been removed from office by recall, or has resigned from office after the filing of a recall petition, shall be appointed to any office under this Charter within one year after such removal or resignation.

SECTION 20 G. In so far as practical, all laws and provisions for holding regular or special elections in the city shall apply to such recall election and wherein applicable or impracticable the council shall by ordinance provide such other and further regulation consistent herewith as may be necessary to carry out the provisions of Sections 20 A, 20 B, 20 C, 20 D, 20 E, and 20 F.

SECTION 20 H. Every amendment hereinbefore proposed shall take effect and be in force from and after the date of its adoption.

That SECTION 5 of the Charter of the City of Brainerd be amended so as to read as follows:

SECTION 5. The elective officers of the city shall be a mayor, two aldermen from each ward, city treasurer, city assessor, city attorney, judge of municipal court and special judge of the municipal court.

The mayor, aldermen, assessor and treasurer shall be electors of the city, and the aldermen elected to represent the several wards shall each be a resident of the ward he is elected to represent. The judge and special judge of the municipal court and the city attorney shall be resident electors of the city and men learned in the law.

That Section 8 of the Charter of the City of Brainerd be amended by striking therefrom the words "city attorney."

That Section 9 of the Charter of the City of Brainerd be amended by striking therefrom the words "city attorney."

That the Charter of the City of Brainerd be amended by adding thereto Section 9 A. to read as follows:

SECTION 9 A. The proposed amendments to Sections 5, 8 and 9 of the Charter of the City of Brainerd shall take effect and be in force on the first Tuesday after the first Monday in May next following the regular city election held after the adoption of this amendment and the amendments herein named, but nominations shall be received prior to the next regular city election for the office of city attorney within the time and in the manner provided by law for other elective offices of the city and at said election said office of city attorney shall be voted upon the same as the other elective offices of said city and the person elected shall take office at the same time following said election as the other elective officers.

Government Sleuths  
Have Moonshiners  
on the Jump

(By United Press)

Atlanta, Ga., March 26.—The operation of moonshine stills in the Blue Ridge mountains has become such a perilous undertaking that none but the most desperate and hardened followers of the game are keeping at it, according to internal revenue officers.

There was a time when a moonshiner could go into a mountain cove, pitch his still by the side of a crystal brook and leisurely and peacefully make his liquor. He took his time, and made good liquor. He filtered it through charcoal to eliminate the fusel oil. He strained it through layers of flannel cloth to make it smooth and pure. That was the "mountain dew" that could be imbibed without a chaser and with no fear of a headache on the morrow.

But now that's all changed, revenue officers say. Officials are stalking the moonshiner day and night. The operator of an illicit still has no time to make good liquor. He pitches his still one day and is gone the next. He is forced to use chemicals to speed up the processes of distilling.

The moonshiner is on the run.

## DEVELOPMENT IN THE HAYDEN CASE

S. B. Hayden, Father of Girl Attacked by Bandit, Offers Reward of \$50 Cash

### SIGNED STATEMENT GIVEN OUT

Father States His Daughter had Received Threatening Letters and Phone Call

Interest in the case of Miss Mildred Hayden, daughter of S. B. Hayden, was heightened today by the following signed statement the father gave the Dispatch for publication:

On account of the different rumors that are going the rounds as to what happened at my store last Thursday, I deem it advisable to state the facts just as they are.

During the past three weeks my daughter Mildred has received a number of notes while at school and one very threatening letter came by mail, also twice during the week previous to last Thursday, some one called her by phone and tried to lure her from home under different pretenses.

On Thursday, March 20th, at 4:40 P.M., I left the store in charge of Mildred and returned at 5 o'clock and found Mildred had been choked into unconsciousness, and then tied with a rope and gagged.

The party who did the deed was about 5 feet 6 inches tall, and quite slim. He wore a blue polka dot handkerchief over his face. While he was choking her, he told her that he was the one that had written her all the notes. He also said he intended to kill another girl that same night. There are several witnesses that followed me into the store and were present while we removed the rope from her feet.

S. B. HAYDEN.

### RWARD

I will pay \$50.00 in cash to any one that will bring me any evidence that will lead to the conviction of the guilty party.

S. B. HAYDEN.

### ORANGE SALES

Every Day is Orange Day at the Brainerd Fruit Co., Distributors of Lucious Fruit

Every day is Orange Day at the Brainerd Fruit Co., for the manager, A. C. Ebert, has set himself a merchandising record of distributing a carload of oranges about the city and every grocery store and confectionery store is being kept stocked up to supply the demand created.

On Tuesday 179 boxes were sold, in the city schools the health cards of the pupils call for fruit at their meals, apples and oranges, and the children are demanding that their parents follow the rules.

When Mr. Ebert was told about this he said very genially, for he has children of his own: "Well, I'm glad we've got somebody boasting for us."

### GAS CO. OFFICIAL

Wheelock Whitney, Vice President of the St. Cloud Public Utilities Co. Inspects Plant

Wheelock Whitney, vice president of the St. Cloud Public Utilities, is in the city conferring with A. B. Willing, local superintendent of the Brainerd Gas & Electric Co., and inspecting the plant here.

Mr. Whitney was in war service and only recently returned to civilian life. While his father is absent in Florida or elsewhere, the duties of management of the many concerns of the Whitneys devolve largely on his shoulders.

Mr. Whitney was impressed with the activities of Brainerd and the opportunities presented and was assured that the business of the company would be largely increased this year.

### BREAK SOUTH OF BRAINERD

Fuses Burned Out at Places—At 10 A.M. Wednesday Switch Trouble at Woodrow

As a result of the storm of Tuesday evening the Cuyuna Range Power Co. experienced more trouble than at any other period in its history.

A break was reported at the Grunhagen farm south of town where transformers are stationed, light being off from about 10:30 in the evening to 11 o'clock. Current was on again for a short interval, then flickered out as the station at Brainerd had several fuses burned out. Light was then off to about 4 o'clock Wednesday morning, as reported by the water and light board offices of the city.

At 10 o'clock Wednesday morning current was off a short time, trouble of switches and fuses being reported at Woodrow. It was soon repaired.

## BACK WAGES ARE DUE WOMEN CLAIMED

### INFRINGEMENT MINIMUM WAGE LAW

Cities Were Inspected by Miss Eliza Evans, Secretary State Minimum Wage Commission

(St. Paul Pioneer Press)

Twenty physicians, dentists and merchants at Brainerd and Crookston are facing the alternative of paying their office attendants and saleswomen back wages or being prosecuted for alleged violation of the minimum wage law. Miss Eliza Evans, secretary of the State Minimum Wage commission, announced yesterday that her return from those towns.

The wage paid in these cases, Miss Evans said, averaged about \$5, while the minimum is \$8.50 under the law. The alleged offenders were given an opportunity to pay the differences to the employes, for periods of six months, in some cases, the secretary said, and to agree to pay the minimum wage, all to avoid prosecution.

Miss Evans was accompanied by Miss Agnes Peterson of the women's bureau, state labor department. Both gave lectures on wage laws and other subjects of interest to women in employment.

You'll find no time during the entire season more advantageous in the selecting of your spring garments than at the present time. We have given very close attention to the style development of the season, and have all the better styles represented.

Suits are the most popular they have been for many seasons. This is not just because they are suits but because the styles are so very attractive. We are showing very pretty styles at \$27.50, \$30.00, \$32.50 and \$35.00. Others at \$40.00 to \$60.00.

For the first time in several seasons we have attractive changes in the style of coats. Nor is there but one style to select from. There are several fine styles: the Dolman, the cape, the full back coat and the regular belted coat. Ours are priced from \$15.95 to \$60.00.

Our Dresses are very compelling. The prettiness of their styles has appealed to many a woman who purchased because they were irresistible. From \$17.50 to \$60.00, we show some very splendid styles.

And the skirts. They are most practical. The fancy skirts are very pretty and the staple styles are very sensible. Our skirts are priced from \$5.95 to \$27.50.

## MOTHER AND SONS ARE BEING TRIED

Mrs. Louise Krueger and Frank and Leslie Charged with Killing a Posse Man

### TRIAL HELD IN WISCONSIN

Ennis Krueger, One of the Brothers, Was Shot to Death by a Deputy Near Neillsville

Brainerd is interested in the case of the Kruegers of Neillsville, Wisconsin, for one of the boys, Leslie Krueger, was taken in custody at Brainerd where he was seeking to evade the draft.

Out of sixty-five jurors called Monday at Neillsville, Wisconsin, to try Mrs. Louise Krueger and her two sons, Frank and Leslie for the murder of Harry Jensen, station agent at Wittenberg last fall, eight were in the jury box when court adjourned for the day. It was expected to complete the jury by Tuesday evening.

October 12 last, Jensen, a member of the posse, was killed and five persons were injured, including Frank Krueger, who surrendered. Later Ennis Krueger was shot to death by a deputy.

Leslie Krueger was captured at Brainerd, taken to Camp Grant, but later the army turned him back to the state authorities.

Those who have had weak kidneys—

Who used Doan's Kidney Pills—Who found the remedy effective—Such statements prove merit.

You might doubt an utter stranger.

You must believe Brainerd people. Here's Brainerd proof. Verify it. Read. Investigate. Be convinced. You'll find why Brainerd folks believe in Doan's.

Chas. E. Warren, contractor and builder, 903 S. Seventh St., Brainerd, says: "I have occasionally done some heavy lifting in the building trade as a carpenter and I think that was the cause of my kidney trouble. On arising in the morning I could hardly straighten. At times I had blinding dizzy spells and one time fell to the floor. As Doan's Kidney Pills had been an old stand-by in our home, I started to use them. It did not take them long to straighten me up."

## SOMEBODY'S BOY NOW AN OUTCAST

Rotten With Venereal Disease and Drug Effects, Sufferer Arrived at Akeley

### TRAINER VISITED BY HIM

Believed to Have Been Same Man Who Was Given Transportation to Bemidji

A young man suffering from venereal disease, which was discovered later, applying for lodging in Brainerd some days ago, was housed at the city jail because he had declared he was "down and out." Next day, when his condition was discovered, being a menace to the health of the community, he was given a ticket to Bemidji and sent to that place. He had stated he had come from Canada and was on his way to his home.

Akeley reported a young man in their town whose condition was similar and many believe he was the same person who traveled through Brainerd. The Akeley Herald gives this report:

The officials of Akeley and the county attorney were shocked Monday to find in their midst a horrible case, living specimen of the individual whom the State Board of Health and every health organization is guarding against. The one question is put forth: Why is he at large? Has the state of Minnesota no place provided for the isolation and treatment for the victim of humanity's worst scourge?

Somebody's Boy, 22 years of age, jumped off the Great Northern, Monday morning, having boarded the train at Walker. According to his own story he is the victim of "King's Evil," and was in pitiable condition from drug poisoning. Never before in this village was there such a condition presented to the local officers. He was broke, down and out. His arms and body were covered with horrible sores. He told the story of his life, but due to his condition little credence was placed in the story, although his body is unmistakable evidence that part of it was true. He proved to be the son of a man in Nyomore, who repudiated the boy when called up by the county attorney. He was temporarily apprehended because he was considered dangerous to the public health of this community. The health officer reported the case to the State Board of Health. He was fed and cared for during the day by the village officers and delivered in the evening to an officer at Bemidji.

This is a case for thorough investigation by the proper state authorities. Surely there must be some protection from such a menace. A trainload of dynamite in the local yards would not be more dangerous to health. If left to mingle among the people he could do more damage to health in one hundred years than could be repaired in a hundred years.

Here is part of his story in nutshell: Mother and father divorced; enlisted in the Canadian army about

## BOARD WINDING UP SHIP VENTURE

Plans Made for Settling Claims Resulting From Wooden Vessel Building.

## ABANDONS INDUSTRY

Chairman Hurley Agrees to Make Concessions for Investments in Yards as Well as All Contracts Cancelled.

Washington, March 26.—At a conference between the shipping board and representatives of 34 yards in 13 states on the Atlantic and Gulf coasts plans for winding up the government's war venture in wooden ships were made.

"Reasonable concessions," in payment of claims made for investments in yards as well as for cancelled contracts were promised by Chairman Hurley and prompt settlement was assured. General Manager Plez of the Emergency Fleet corporation will be given authority tomorrow to close the government's accounts with the builders as soon as the claims are properly certified and no more contracts for wooden ships will be let.

Claims Aggregate \$3,000,000.

With the government's retirement from the wooden ship industry, one of the developments of the national emergency virtually will be abandoned, according to the builders.

Claims for losses due to the creation as a war measure of shipyards which now will have to be scrapped as worthless, are expected to aggregate no more than \$3,000,000. It has not been possible to estimate the amount necessary to settle contract claims, because inventories of expenditures for material and labor have not been made.

A total of more than \$100,000,000 in contracts has been cancelled but in many instances work had not begun, so the amount to be paid by the government will be correspondingly less.

Builders Express Satisfaction.

Satisfaction with the action of Chairman Hurley and his associates was expressed by representatives of the yards who later at a separate meeting discussed plans for presenting their claims. Each yard will act independently.

The ship builders were frank in stating that the decision of the Shipping board to confine its future construction to steel vessels, meant that at least 98 per cent of the facilities for building wooden ships would be useless in the future. A total of 183 ways was represented at the meeting, nearly all of which will be abandoned or torn away to permit the use of the land for manufacturing and other purposes. Vessels now on the ways will not be completed orders having been given to finish only the hulls, which probably will be used as barges.

Not so long ago a pathetic scene might have been witnessed in one of the company streets. Smoke was being carried along, in a cowering, timid state bordering on shell shock or mental collapse, by a great hulking stevedore, who was attempting to soothe him.

"Doin' yo' keer, Smoke," he crooned. "Doin' yo' bother a bit if folks laughs at yo'. Even if yo' can't fight no b'emp'y monkeys, you's do best! It's black dawg as ever wuz borned een Fraunce, so yo' is!"

## PLAN WORLD UPRISING

Russian and Hungarian Anarchist Governments Issue Call.

All Classes in Hungary Said to Be Joining Communists' Army to Fight Entente.

Berlin, March 26.—According to advices received here from Budapest, the Russian and Hungarian soviet governments have called for a worldwide uprising of the proletariat.

While agreeing to an offensive and defensive alliance with the Hungarians, Premier Lenin is said to have declared his objection to an armed Bolshevik crusade at this time, preferring to use propaganda and money with the help of the foreign proletariat, to win over the bourgeoisie.

All Joining Communists.

All classes in Hungary are reported to be joining the communists, who are raising a huge army in the hope of combining with the Russians in a war against the Entente. They plan to make their initial drive against the Czechoslovak and Rumanians.

Increased restlessness is becoming evident throughout Germany.

East Prussians are said to be arming and preparing for civil war if Danzig is awarded to Poland. They have adopted the battle cry "Death rather than become Poles."

Demonstrations in Berlin.

Several strong demonstrations have occurred in Berlin, Breslau and Danzig in opposition to annexation of Danzig and the Saar valley and in favor of President Wilson's 14 points.

These demonstrations are led by Mathias Erzberger, Finance Minister Schiller and other prominent officials. Sailors at Bremen are reported to have refused to allow merchant ships to leave that port to be turned over to the Allies.

Mummies Show Arteriosclerosis.

Egyptian mummies show that arteriosclerosis afflicted the ancient Egyptians, and it has been established that tuberculosis is at least 2,000 years old, according to the Journal of the American Medical Association.

"Mummies have revealed that humanity has not changed in its pathologic reactions in fifty centuries at least."

"It is illuminating to realize that in spite of the fact that the ancient Egyptians led lives of ease, had no tobacco, and did not overindulge in meat eating, their arteries degenerated practically in the same way as our own."

## TAKE SALTS TO FLUSH KIDNEYS

Eat less meat if you feel Backache or Bladder troubles you—Salts is fine for Kidneys.

Meat forms uric acid which excites and overworks the kidneys in their efforts to filter it from the system. Regular eaters of meat must flush the kidneys occasionally. You must relieve them like you relieve your bowels; removing all the acids, waste and poison, else you feel a dull misery in the kidney region, sharp pains in the back or sick headache, dizziness, your stomach sours, tongue is coated and when the weather is bad you have rheumatic twinges. The urine is cloudy, full of sediment; the channels often get irritated, obliging you to get up two or three times during the night.

To neutralize these irritating acids and flush off the body's urinous waste get about four ounces of Jad Salts from any pharmacy; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine and bladder disorders disappear. Jad Salts is inexpensive; harmless and makes a delightful effervescent lithia-water drink which millions of men and women take now and then, thus avoiding serious kidney and bladder diseases.

## BELIEVES DRAFT CONTAINS MERIT

Holland Foreign Minister Declares in Favor of Plan for League of Nations.

## SCHEME NOT PERFECT

Netherlands Government Considers Its Duty Lies in Saluting Coming of Society of Powers With Great Satisfaction.

Amsterdam, March 26.—Jonkheer Karnebeek, the foreign minister, made the following statement regarding the League of Nations:

"The Netherlands government, having received an invitation to attend the peace conference, while it is discussing the League of Nations, Dr. Iodder, a member of the high court of appeals, and Prof. W. J. M. Van Eysinga of Leyden university, have been sent to Paris in order to co-operate with Dr. John London and explain the views of their government in this matter.

"I hold the opinion that the present draft for a League of Nations really deserves attention as a fair introductory step to a period in the relations between nations, opening quite a new channel for the development of the mutual interests of humanity.

"However, I am one of those who think the equality of the rights of nations, one of the most important means for increasing the confidence of the smaller powers in a League of Nations, and I feel that in this direction the plan does not give entire satisfaction. Nevertheless, I am much inclined to believe that the present scheme of the League of Nations will in no way hinder its future improvement and development on a larger scale.

"At the same time it might be considered the duty of the Netherlands, backed by their tradition of prospering the work of international understanding and international law, to salute the coming of a League of Nations generally with great satisfaction and without too much criticism."

## SPENCER SUPPORTS LEAGUE

Missouri Senator Says Covenant Is in Interest of Peace.

Jefferson City, Mo., March 26.—United States Senator Selden P. Spencer of St. Louis, Republican, in addressing a joint session of the Legislature on the League of Nations covenant said certain provisions of the covenant, in conception and purpose would be "the greatest achievement in the interest of peace which the world has ever seen."

Senator Spencer said he approached the subject of the League "with every inclination in its favor," and said the covenant invites "both sympathetic and co-operative consideration."

## STAGE GIANT IS MURDERED

Shooting is Said to Have Been Result of a Quarrel.

Milwaukee, March 26.—George Bell, 25, the seven-foot, 11 inch, colored man of a musical production playing at a local theater, was shot and instantly killed at a rooming house.

Mazie Ealy, 25, who traveled with the actor, was arrested and locked up by local detectives in connection with the crime. The shooting is said to have been the result of a quarrel.

Bell weighed 375 pounds.

## REVOLT SPREADS IN EGYPT

British Government Compelled to Stop Demobilization.

London, March 26.—Defending the military service bill in the House of Commons, Winston Spencer Churchill, secretary for war, declared that the whole of Egypt was in virtual state of insurrection. The position was so dangerous, he added, that the government had to appeal to men on the point of demobilization to return and save their comrades from being murdered.

## General Peace Treaty Now Being Planned

BY FRED S. FERGUSON  
(Staff Correspondent, United Press)

Paris, March 26.—A treaty embracing all the enemy countries instead of a preliminary pact with Germany is now being planned in an effort to speed up the peace settlement, it was learned from authoritative sources today. The best guess at when such a treaty would be ready for submission to the enemy powers by calling in their delegates is May 1. This plan completely upsets the program along which the peace conference has been working for the past month. It is not yet certain the new scheme will be carried out, but some of the delegates point out that various questions are so inter-related, that some time will be saved in the long run by tying all treaties together.

## Immediate Peace Being Urged Today

BY WM. PHILLIP SIMMS  
(Staff Correspondent, United Press)

Paris, March 26.—Immediate peace along broad lines with the settlement of details afterward, through the League of Nations, was being urged by many delegates who have been galvanized into action by the westward spread of Bolshevism. The next step, it was pointed out, would be to furnish concrete support of the new or enlarged nations of Europe, whose security the allies are in honor bound to maintain. The belief was expressed today that expeditionary forces will not be necessary or advisable.

Regulations being prepared by the corporation to cover advances will provide for the lending of sums up to \$50,000,000 to any individual firm, corporation or export association, probably at 5% per cent for a maximum of five years, on adequate collateral.

The matter of the collateral security to be accepted remains to be worked out, but indications are that paper representing merchandise engaged in the export processes will be acceptable. Collateral to the extent of 125 per cent of the loan probably will be required.

Scores of informal applications for information or for advances have been received from individual exporting firms or representatives of the export associations being organized under the Webb act, the war finance corporation reported today. Preparations for making the loans will be rushed.

Reports indicate that exporters are planning to make extensive use of the government foreign trade fund as soon as the regulations are completed and the corporation is ready to accept formal applications.

## FUND FOR EXPORTERS

Government Preparing to Loan One Billion Dollars.

Nature of Collateral Security Required Remains to Be Worked Out.

Washington, March 26.—The government's billion dollar fund for financing foreign trade soon will be opened to American exporters through loans from the war finance corporation.

Regulations being prepared by the corporation to cover advances will provide for the lending of sums up to \$50,000,000 to any individual firm, corporation or export association, probably at 5% per cent for a maximum of five years, on adequate collateral.

## Revolutionary Government in Control in Hungary

(By United Press)

Basle, March 26.—Czech forces have occupied the important city of Raab on the Danube only sixty-seven miles northwest of Budapest, a Vienna dispatch to the Frankfurter Zeitung says. An army is being formed in Hungary says a Budapest dispatch. Alexander Werkele, the former premier has been arrested. All foreigners including Austrians have been interned. The revolutionary government is now firmly established. Fritz Adler, the Austrian socialist leader has sent a message to Budapest announcing the readiness of Austrian workers to join the Bolshevik movement if food can be obtained elsewhere than from the entente.

The success of the Hungarian revolution has made the Spartacists here restless. The independent socialist still oppose an armed uprising in Germany, and disagreement threatens to disrupt the central soviet.

## IS YOUR BLOOD STARVING FOR WANT OF IRON?

Iron Is Red Blood Food—It Helps to Put Strength and Energy Into the Veins of Men and Roses into the Cheeks of Women. Why Nuxated Iron so Quickly Builds Up Weak, Nervous, Run-down People.

Thousands of men and women are impairing their constitutions, laying themselves open to illness and literally losing their grip on life. It is a common experience to come out and possibly starve through lack of iron. Lack of iron in the blood not only makes a man a physical and mental weakling, but it is also a factor in his character. It is only the iron of the vital force that stamina and strength of will which are necessary to success and power in every walk of life. It may also transform a beautiful woman into one who walks cross.

Iron is absolutely essential to enable your blood to transform the food you eat into mineral tissue and blood. It is through iron that a man can grow strong and healthy. When iron enters the body, without iron there is no strength, vitality and endurance to combat disease or withstand severe physical exertion. The general state of iron in the human body is not necessarily mean you do not have enough blood, but it means your blood is not the right kind. To be really strong, keen, red-blooded people are nothing but iron. Unlike the older iron, which produces it easily assimilated, does not injure the teeth, male these black nor upset the stomach. No matter what you eat, iron must be added to it. You have used it without success, if you are not strong or well you owe it to yourself to make the following test: See how long you can work or how far you can walk without being

## WOMAN'S REALM

### WOMEN'S WORK IN 6TH DISTRICT

National Director Council of Defense Urges that Community Councils be Kept Up

### CHILD WELFARE WORK DONE

Need of a Trained Public Health Nurse in the County—Other Matters Discussed

County reports for the Sixth District are now coming in. These are among the last under the war organization although an earnest request comes from the National Director of the Council of Defense that Community Councils be kept up.

Among the most important and interesting is the report of the Crow Wing County Child Welfare Committee, Mrs. W. C. Deering of Crosby, chairman. To her was intrusted the leadership in the campaign for the Children's Year as planned by the National Council. During the year many talks have been given in child welfare, literature distributed on the proper feeding of infants, an excellent exhibit conducted at the county fair and the weighing and measuring of the county's babies carried out.

During all this time the valuable assistance which a well trained public health nurse would be, has been dwelt upon and a widespread desire aroused among the women that we have such a nurse in the county. Under the bill providing for the Child Welfare Board it is suggested that such a nurse may well act as a field-worker for the board. The State Board of Control has now asked for a survey of children in each county. Dr. Huenekeins, the child specialist who will come and conduct the baby welfare clinic for the Woman's Committee next month in both Brainerd and Crosby, has also said that the value of the clinic would be much increased if a visiting nurse could be placed in the field to do follow-up work.

When Mrs. Swan, state chairman, was in Brainerd she urged that as a successful closing of the Children's Year, the Woman's Committee relax no effort until the services of a nurse had been acquired. The committee is happy to report that practically the full amount of money is now pledged by organizations and individuals in the county to secure the services of a well-trained, experienced nurse for a three months' demonstration period. The committee is in touch with some of the best sources of information in the country including the American Red Cross Town and Country Nursing Service and applications are already coming in. The success of this project is due almost wholly to the untiring efforts of the chairman, Mrs. W. C. Deering.

It is assured that Brainerd will raise its quota under the leadership of its chairman, Mrs. R. A. Beise. It is hoped that at an early date under some form of county wide organization such a public health worker may be arranged for in a permanent basis.

### Women Will Form League of Voters

(By United Press)

St. Louis, March 26—A league of women voters to speed the final enfranchisement of the women of the United States and to remove all legal discriminations against women, was one of the many interesting subjects discussed at the National American Woman Suffrage convention here today. The sessions will last until Saturday, March 29. Delegates from every state in the Union are in attendance.

The jubilee convention, which commemorates the fiftieth anniversary of the granting of suffrage to women in Wyoming in 1869, was attended by some of the best known suffrage leaders. In 1869 the National Suffrage Association was formed, to be followed by the American Suffrage Association. In 1890 they were merged into the National American Woman Suffrage Association. For fifty years the organization has been continuous.

As the most fitting memorial to the half century of campaigns, women of the country were invited to send delegates to a Woman Voters' Conference. Upon this foundation the convention hopes to build a New National Voters' league.

Each fully enfranchised State was represented in the league Conference, including Wyoming, Colorado, Idaho, Utah, Washington, California, Oregon, Montana, Nevada, Arizona, Kansas, New York, Michigan, South Dakota and Oklahoma. Each state sent fifty delegates.

Some of the questions raised in general at the discussion were: "Why does the United States lag behind other nations in extending votes to its women?" "By what policy can the enfranchisement of women be most speedily brought to final triumph?" "Are women voters treated

### DANCED TO CANDLE LIGHT ON TUESDAY

Party Given Jointly by Blue Lodge and Eastern Star Was an Enjoyable Society Function

### STAR LADIES SERVED LUNCH

Program Given Earlier in Evening, Three-Piece Orchestra Played at the Hall

Members of the Masonic orders and ladies of the Eastern Star had a new novel dance number Tuesday evening, for they danced to candle light at Masonic hall and enjoyed themselves immensely.

A three-piece orchestra played. The hall was nicely decorated for the occasion. The party was really a joint affair on the part of the Blue Lodge and the Eastern Star. The ladies of the Eastern Star served a delicious lunch, buffet style, of ice cream, cake, etc.

Cards were played during the evening by those who did not dance.

The program given was a meritorious one, including two piano solos by Mrs. Jennie Mysen-Lind, two violin solos by Miss Fern Hitt, a duet by Mrs. George D. LaBar and S. F. Alderman, with piano accompaniment played by Mrs. Walter F. Wieland.

An address by Rev. Hans Wolner was not given, owing to the unavoidable absence of the popular minister.

### Basket Social

There will be a basket social given by the Luther society of the Swedish Lutheran church Friday evening, March 28th, at the church parlors. Everybody is welcome.

—Girls of the Land Army are to share equally with ex-soldiers facilities for taking up small holdings in the Government's land scheme.

Thousands of girls have signified their wish to continue working on the land, and the authorities have gladly acceded to their request, for the man—or woman—behind the plow is deemed the most active and remunerative asset of the state.

## DR. THABES AS MAYOR

To perform the duties of the office of mayor efficiently and creditably, the incumbent must be one who has the time and disposition to give his thoughts and attention to matters of public interest and civic pride. This frequently involves considerable time and expense for which he cannot be reimbursed from public funds, and would be a hardship on most citizens. Dr. Thabes, in the past, as an enterprising public spirited citizen, has always given of his time and means in community betterment and the advancement of the city along progressive lines, and his election as the chief executive of the city would no doubt increase his opportunity to serve the city in this manner. It is for this reason that the Dispatch believes his election as mayor would best serve the city's interests, and hopes to see him elected.

## WATER TESTS THOROUGH

It is most interesting to read of the favorable results and tests made at Boom Lake by the Water and Light Board. All doubts should now be dispelled about lack of water in an underground supply. The tests were thorough, comprehensive, and commented upon most favorably by a number of engineers. As publishers of a newspaper we do not pretend to know anything about "water level," "glacial drift," "porosity," and such other terms, but we are perfectly contented to accept what is presented or offered as being 100% proper. Anyone offering adverse criticism will have to search with a fine-toothed comb for flaws—if there are any. The super-critical will probably find no place here this time. Even if there should be some one shortcoming or defect, the thing as a whole stacks up well.

Three very fine citizens are candidates for city treasurer, Geo. Berggreen, Richard Isle and D. A. Peterson. Mr. Berggreen and Mr. Peterson are independent candidates and Mr. Isle was nominated by representatives of organized labor. Mr. Peterson is the present incumbent, and Mr. Berggreen was elected to the office at the last election, and served for some months when he resigned to go into the service during the war. Mr. Berggreen's friends feel that he should be returned to the office that he relinquished to serve his country. No matter who is elected the city will be efficiently served.

In another column we print the proposed charter amendments to be voted on at the city election April 1st. These amendments are printed officially in the weekly, but we print them today in the daily for the information of the voters. One provides for the recall of city officers and the other provides for the election of city attorney by vote of the people instead of the council as at present.

## PLANS REMAIN UNCHANGED

Speedy Return of American Soldiers Will Continue.

St. Louis, March 26.—The Hungarian situation will not close war department plans for speedy return of American troops from France.

General Peyton C. March, chief of staff, declared here:

"We plan to have 915,000 soldiers home by July 1. There will be no delay on account of the Hungarian developments."

## The Tests at Boom Lake.

Four years ago the Water and Light Board made its first drilling test for a new water supply, planned to be from an underground source in place of using surface-water from the river, as at present. On opposite or west side of the river, one quarter mile south of the west end of the dam, at the old pulp-mill site, a series of tests were made at a place popularly known as Spring Bay. While being on that side of the river lent some objection, by far the worst was that the water tested much too high in iron content.

Wells were drilled then at various places on the east bank from Rice lake outlet to south of Boom lake, and at the latter place all tests proved most favorable from any and every standpoint. Twenty-four 5-inch wells were drilled near Boom lake; they ranged from 26 to 216 feet in depth, averaging 60 feet. It must be borne in mind that these wells are drilled at elevations from 50 to 70 feet lower than that of the surrounding general elevation, say like South 6th street. While it is the wells south of Boom lake that we are most interested in, we will continue to use that name for convenience sake.

All holes were drilled to gravel beds bearing water, and most of them thru gravel. Samples were taken of water after each well was pumped for several hours. Analyses were made by State Board of Health. The object was to find water low in hardness and alkalinity and as free as possible of incrustants, chlorine, and iron.

At the south end of Boom lake is a persistent and thick bed of gravel sloping slightly southwestward. It is about 30 to 50 feet below the top surface of the river, which is only about 10 feet deep here. With the gravel is generally associated a layer of very coarse sharp sand also carrying water. The gravel is from 3 to 16 feet thick, and with the associated layers of coarse sharp sand, constitutes a water-bearing medium from 10 to 40 feet thick. With such a thickness and such material there need be no fear of shortage of water.

Wells are on low ground, about 60 feet below the level of the surrounding country. The "flats," so called, are admirable for the location of a well system and permit of easy expansion when required.

A pumping test was conducted on well No. 21. For 26 days steadily water was drawn continuously from the 5-inch well with a centrifugal pump. Before starting the test the elevation of all wells at surface and the elevation of the water in the wells was observed. The wells varied in elevation from 46 to 63 feet; the water-level varied from 46-1 to 47-7½. Thus, altho the ground level varied by 17 feet, the water-level varied by only 1½ feet, and it was noted that the water stood lower in the wells farther west and nearest the river, indicating a gradient or flow of the water in that direction.

The pump delivered 450 gallons per minute (618,000 gallons per day) from that well. Two or three such wells would supply Brainerd's needs. Careful measurements were made to note the drop in elevation of water in the wells while test proceeded. After the pumping test was concluded, the water in the wells rose quite promptly, showing how quickly the wells recover with only a short rest. In fact, except for the first two or three days, the measurements showed virtually no decrease at all in elevation of the water-level.

Special Private Stock  
 Mix two pounds of hops, a peck of malt and five gallon of water. Steep for three or four hours. Then drain off water and put in keg. Cover the hops and malt with five gallons more water and boil, but don't boil. Dissolve in this two pounds of brown and three of white sugar. Allow to cool to 50 to 90 degrees and add three yeast cakes; put all in a barrel and let it stand for 96 hours. Then bung it up and set away for at least a week.

Just a Snifter  
 Put two raisins in a bottle of beer. Let it sit a while.

The Festive Cocktail  
 A pound of raisins, a pound of brown sugar and a gallon of water make up the only necessary ingredients of a "guaranteed" cocktail substitute, according to some. The concoction should be brought to a simmer, placed in a wooden vessel and allowed to "work" for fifteen days.

Some "Kick Here"  
 Put two quarts of white corn in a keg of cider. Allow to ferment. The result is astounding and in keeping with the best traditions of Kentucky distillery products.

## NORTHWEST NEWS

## Victoria Cross Winners

Winnipeg, March 26—Winnipeg men won ten of the 67 Canadian decorations with the Victoria Cross—the greatest of all British war honors.

Of these ten men only five remain alive. Two were killed in action, two died from wounds on the battlefield while the fifth after recovering from dangerous wounds came back to Canada and died from influenza-pneumonia at the general hospital here.

## For Americanization

St. Paul, March 26—So great has the need for education and Americanization become that the University of Minnesota has enlarged a correspondence study department under the general extension division.

"It was once thought that to gain knowledge in any systematic manner one must put himself under the direct personal supervision of a teacher" says the University department. "Many still think this and some give up all effort to self improvement if they cannot attend schools. It is to meet just such needs as theirs that the correspondence section of the university has been developed."

The work at present includes preparatory and college grade courses and vocational courses in business and engineering subjects. The preparatory courses are of high school grade. The college courses enable one to work for credit toward a degree from the University. As many as half the credits required may be earned in this way. Students who see University credit must be able to satisfy the entrance requirements of the University but if credit is not desired one may register for these courses. Many of them are of general value dealing as they do with economics, history, political science, sociology and other subjects of present interest. The vocational courses are practical in their nature and make constant application of the principles they teach. These as well as the other type of courses will be increased in number and scope as the demand grows.

## Public Reception

St. Paul, March 26—Having officially assumed the archbishopric of St. Paul diocese of the Catholic church, Justin Dowling tonight will be given a public reception at the auditorium. Thousands are expected to greet the new archbishop. Laymen and clergy of the church from throughout the northwest will attend. Elaborate decorations and entertainment has been arranged.

## Festive Cocktail Will be a Home Made Luxury

(By United Press)

New York, March 26—With the passing of "Old John Barleycorn," many and varied are the substitutes offered for something with a "kick in it." The humble raisin is coming into its own in the home-made mixing of the festive cocktail.

One W. S. Rogers, a sponsor for the "dissolved cocktail," is said to be organizing a company to make compressed cocktails in a laboratory in San Jose, Cal.

At no far distant date the thirsty one will be able to take a plug out of his pocket, much the same as the village tobacco-chewer, wring it off a comfortable section, drop it into a tumblerful of water, stir it a bit, and drink to his heart's content. At least that's what the knowing ones are saying. Besides, they say there are other ways.

## PROPOSED AMENDMENTS TO THE CITY CHARTER OF THE CITY OF BRAINERD

That Chapter 2 of the Charter of the City of Brainerd be amended by adding thereto the following section:

"SECTION 20 A. Any elective municipal officer, whether elected by popular vote or appointed to fill a vacancy, may be removed at any time by the electors qualified to vote for a successor of such officer. The procedure to effect a removal of such elective municipal officer shall be as follows:

"SECTION 20 B. A petition signed by electors entitled to vote for a successor of the officer sought to be removed equal in number to at least twenty-five per centum of the entire vote for all candidates for the office, the incumbent of which is sought to be removed, cast at the last preceding regular municipal election, demanding an election of a successor of the person sought to be removed, shall be addressed to the council and presented to the City Clerk, provided, that said petition shall contain a general statement of the ground for which the removal is sought.

"SECTION 20 C. The signatures to the petition need not all be appended to one paper, but each signer shall add to his signature his place of residence, giving the street and number. One of the signers to each such paper shall make oath before an officer competent to administer oaths, that the statements therein made are true, and that each signature to the paper appended is the genuine signature of the person whose name purports to be thereunto subscribed. Within ten days from the date of said presentation of such petition the city clerk shall examine and from the poll lists of the last regular municipal election ascertain whether or not said petition is signed by the requisite number of qualified electors, and if necessary, the council shall allow him extra help for that purpose, and he shall attach to said petition his certificate showing the result of said examination. If, by the clerk's certificate, the petition is shown to be insufficient, it may be amended within ten days from the date of said certificate. The clerk shall, within ten days after such amendment, make like examination of the amended petition, and if his certificate shall show the same to be insufficient it shall be returned to the person presenting the same without prejudice, however, to the presentation and filing of a new petition to the same effect.

"SECTION 20 D. If the petition shall be found to be sufficient the clerk shall transmit the same to the council without delay. If the petition shall be found to be sufficient the city council shall order, and fix a date for holding the said election, not less than thirty days nor more than forty days from the date of the clerk's certificate to the council that a sufficient petition is filed. The city council shall make or cause to be made publication of notice, and all arrangements for holding such election, provided, that in the published call for the election there shall be printed in not more than 200 words the reason for demanding the recall of the officer as set forth in the recall petition, and in not more than 200 words the officer may justify his course in office; and said election shall be conducted, returned, and the result thereof declared, in all respects, as are other city elections.

"SECTION 20 E. The officer sought to be removed shall be deemed a candidate, and, unless he resigns his name shall be printed on the ballot without nomination. The nomination of other candidates shall be the same as the nomination of candidates for any regular city election for the office of which the incumbent is sought to be removed. The officer sought to be removed shall continue in office until the canvass of the returns of such recall election by the council, and if he fail at such election to receive the highest number of votes, he shall be deemed removed from office and the candidate at such election receiving the highest number of votes shall be deemed his successor in office for the unexpired term thereof. Such successful candidate except the recalled officer, shall qualify within ten days thereafter or the said officer shall be deemed vacant. Said recalled officer shall yield office on demand to his successor.

"SECTION 20 F. No person who has been removed from office by recall, or has resigned from office after the filing of a recall petition, shall be appointed to any office under this Charter within one year after such removal or resignation.

"SECTION 20 G. In so far as practical, all laws and provisions for holding regular or special elections in the city shall apply to such recall election and the preliminaries thereto, and wherein applicable or impractical the council shall by ordinance provide such other and further regulation consistent herewith as may be necessary to carry out the provisions of Sections 20 A, 20 B, 20 C, 20 D, 20 E, and 20 F.

"SECTION 20 H. Every amendment hereinbefore proposed shall take effect and be in force from and after the date of its adoption.

That SECTION 5 of the Charter of the City of Brainerd be amended so as to read as follows:

"SECTION 5. The elective officers of the city shall be a mayor, two aldermen from each ward, city treasurer, city assessor, city attorney, judge of municipal court and special judge of the municipal court.

The mayor, aldermen, assessor and treasurer shall be electors of the city, and the aldermen elected to represent the several wards shall each be a resident of the ward he is elected to represent.

The judge and special judge of the municipal court and the city attorney shall be resident electors of the city and men learned in the law.

That Section 8 of the Charter of the City of Brainerd be amended by striking therefrom the words "city attorney."

That Section 9 of the Charter of the City of Brainerd be amended by adding thereto Section 9 A. to read as follows:

"SECTION 9 A. The proposed amendments to Sections 5, 8 and 9 of the Charter of the City of Brainerd shall take effect and be in force on the first Tuesday after the first Monday in May next following the regular city election held after the adoption of this amendment and the amendments herein named, but nominations shall be received prior to the next regular city election for the office of city attorney within the time and in the manner provided by law for other elective offices of the city and at said election said office of city attorney shall be voted upon the same as the other elective offices of said city and the person elected shall take office at the same time following said election as the other elective officers.

The foregoing is a draft of certain proposed amendments to the Charter of the City of Brainerd, in Crow Wing County, Minnesota, duly formulated and adopted by the duly appointed, qualified, existing and acting Charter Commission of the City, under the appropriate provisions of the constitution and of the statute in such case made and provided, which said draft of proposed amendments is hereby delivered to the Honorable R. A. Beise, mayor of the City of Brainerd, to be submitted to the City Council for further proceedings according to law.

Signed by the following members of the said Charter Commission comprising a majority thereof.

Dated at Brainerd, Minnesota, this 14th day of February, A. D. 1919.

## DEVELOPMENT IN THE HAYDEN CASE

### STORM CAUSED POWER TROUBLE

S. B. Hayden, Father of Girl Attacked by Bandit, Offers Reward of \$50 Cash

#### SIGNED STATEMENT GIVEN OUT

Father States His Daughter Had Received Threatening Letters and Phone Call

Interest in the case of Miss Mildred Hayden, daughter of S. B. Hayden, was heightened today by the following signed statement the father gave the Dispatch for publication:

On account of the different rumors that are going the rounds as to what happened at my store last Thursday, I deem it advisable to state the facts just as they are.

During the past three weeks my daughter Mildred has received a number of notes while at school and one very threatening letter came by mail, also twice during the week previous to last Thursday, some one called her by phone and tried to lure her from home under different pretences.

On Thursday, March 20th, at 4:40 P. M., I left the store in charge of Mildred and returned at 5 o'clock and found Mildred had been choked into unconsciousness, and then tied with a rope and gagged.

The party who did the deed was about 5 feet 6 inches tall, and quite slim. He wore a blue polka dot handkerchief over his face. While he was choking her, he told her that he was the one that had written her all the notes. He also said he intended to kill another girl that same night. There are several witnesses that followed me into the store and were present while we removed the rope from her feet.

S. B. HAYDEN.

#### RWARD

I will pay \$50.00 in cash to any one that will bring me any evidence that will lead to the conviction of the guilty party.

S. B. HAYDEN.

#### ORANGE SALES

Every Day is Orange Day at the Brainerd Fruit Co., Distributors of Lucious Fruit

Every day is Orange Day at the Brainerd Fruit Co., for the manager, A. C. Ebert, has set himself a merchandising record of distributing a carload of oranges about the city and every grocery store and confectionery store is being kept stocked up to supply the demand created.

On Tuesday 170 boxes were sold. In the city schools the health cards of the pupils call for fruit at their meals, apples and oranges, and the children are demanding that their parents follow the rules.

When Mr. Ebert was told about this he said very genially, for he has children of his own: "Well, I'm glad we've got somebody boasting for us."

#### GAS CO. OFFICIAL

Wheeloock Whitney, Vice President of the St. Cloud Public Utilities Co. Inspects Plant

Wheeloock Whitney, vice president of the St. Cloud Public Utilities, is in the city conferring with A. B. Willing, local superintendent of the Brainerd Gas & Electric Co., and inspecting the plant here.

Mr. Whitney was in war service and only recently returned to civilian life. While his father is absent in Florida or elsewhere, the duties of management of the many concerns of the Whitneys devolve largely on his shoulders.

Mr. Whitney was impressed with the activities of Brainerd and the opportunities presented and was assured that the business of the company would be largely increased this year.

#### JENS R. JACOBSON

Died of Heart Trouble, Was Well Known Car Reparer Living in N. E. Brainerd

Jens R. Jacobson of 516 Northeast Second avenue, died of heart trouble Wednesday morning. He had been sick the past year and a half. He was 45 years old and married to a daughter of Mrs. Alfonso. Before becoming taken sick he was employed as a car reparer at the shops. He was a member of the Norwegian-Danish Lutheran church. The funeral will be held at 10 o'clock Thursday morning at the Whitney chapel, Rev. A. Sorenson officiating. The remains will be sent to Cyrus.

#### FOR SALE

Stock of general merchandise, buildings and about one acre ground. Good clean stock. Invoice about \$1,500, including fixtures. Doing good business. When you make a dollar it don't all go as expense. An excellent garden spot. Reason for selling. Low figure for cash, or part payment, balance time, 6 per cent. Further particulars, address W. H. Oostine, Sylvan, Minn. 2472-147.

#### BREAK SOUTH OF BRAINERD

Fuses Burned Out at Places—At 10 A. M. Wednesday Switch Trouble at Woodrow

As a result of the storm of Tuesday evening the Cuyuna Range Power Co. experienced more trouble than at any other period in its history.

A break was reported at the Grunhagen farm south of town where transformers are stationed, light being off from about 10:30 in the evening to 11 o'clock. Current was on again for a short interval, then flickered out as the station at Brainerd had several fuses burned out. Light was then off to about 4 o'clock Wednesday morning, as reported by the water and light board offices of the city.

At 10 o'clock Wednesday morning current was off a short time, trouble of switches and fuses being reported at Woodrow. It was soon repaired.

### BACK WAGES ARE DUE WOMEN CLAIMED

Twenty Physicians, Dentists and Merchants of Brainerd and Crookston are Cited

#### INFRINGE MINIMUM WAGE LAW

Cities Were Inspected by Miss Eliza Evans, Secretary State Minimum Wage Commission (St. Paul Pioneer Press)

Twenty physicians, dentists and merchants at Brainerd and Crookston are facing the alternative of paying their office attendants and saleswomen back wages or being prosecuted for alleged violation of the minimum wage law. Miss Eliza Evans, secretary of the State Minimum Wage commission, announced yesterday that her return from those towns.

The wage paid in these cases, Miss Evans said, averaged about \$5, while the minimum is \$5.50 under the law.

The alleged offenders were given an opportunity to pay the differences to the employees, for periods of six months, in some cases, the secretary said, and to agree to pay the minimum wage, all to avoid prosecution.

Miss Evans was accompanied by Miss Agnes Peterson of the women's bureau, state labor department. Both gave lectures on wage laws and other subjects of interest to women in employment.

#### DEATH OF LITTLE GIRL

Elfrida Satre, Daughter of Ingebright Satre, Died in S. E. Brainerd

Elfrida Satre, three year daughter of Mr. and Mrs. Ingebright Satre, 1506 Pine street Southeast, died of influenza complications Tuesday. The family are members of the Norwegian-Danish Lutheran church. The funeral arrangements will be announced later.

#### SOLDIER'S FUNERAL

# A Word About Our Garments

You'll find no time during the entire season more advantageous in the selecting of your spring garments than at the present time. We have given very close attention to the style development of the season, and have all the better styles represented.

Suits are the most popular they have been for many seasons. This is not just because they are suits but because the styles are so very attractive. We are showing very pretty styles at \$27.50, \$30.00, \$32.50 and \$35.00. Others at \$40.00 to \$60.00.

For the first time in several seasons we have attractive changes in the style of coats. Nor is there but one style to select from. There are several fine styles: the Dolman, the cape, the full back coat and the regular belted coat. Ours are priced from \$15.95 to \$60.00.

Our Dresses are very compelling. The prettiness of their styles has appealed to many a woman who purchased because they were irresistible. From \$17.50 to \$60.00, we show some very splendid styles.

And the skirts. They are most practical. The fancy skirts are very pretty and the staple styles are very sensible. Our skirts are priced from \$5.95 to \$27.50.

### MOTHER AND SONS ARE BEING TRIED

Mrs. Louise Krueger and Frank and Leslie Charged with Killing a Posse Man

#### TRIAL HELD IN WISCONSIN

Ennis Krueger, One of the Brothers, Was Shot to Death by a Deputy Near Neillsville

Brainerd is interested in the case of the Kruegers of Neillsville, Wisconsin, for one of the boys, Leslie Krueger, was taken in custody at Brainerd where he was seeking to evade the draft.

Out of sixty-five jurors called Monday at Neillsville, Wisconsin, to try Mrs. Louise Krueger and her two sons, Frank and Leslie for the murder of Harry Jensen, station agent at Witten last fall, eight were in the jury box when court adjourned for the day. It was expected to complete the trial by Tuesday evening.

October 12 last, Jensen, a member of the posse, was killed and five persons were injured, including Frank Krueger, who surrendered. Later Ennis Krueger was shot to death by a deputy.

Leslie Krueger was captured at Brainerd, taken to Camp Grant, but later the army turned him back to the state authorities.

### SOMEBODY'S BOY NOW AN OUTCAST

Rotten With Venereal Disease and Drug Effects, Sufferer Arrived at Akeley

#### TRAILER VISITED BY HIM

Belived to Have Been Same Man Who Was Given Transportation to Bemidji

Akeley reported a young man in their town whose condition was similar and many believe he was the same person who traveled through Brainerd. The Akeley Herald gives this report:

The officials of Akeley and the county attorney were shocked Monday to find in their midst a horrible case, a living specimen of the individual whom the State Board of Health and every health organization is guarding against. The one question is not forth: Why is he at large? Has the state of Minnesota no place provided for the isolation and treatment for the victim of humanity's worst scourge?

Somebody's Boy, 23 years of age, jumped off the Great Northern Monday morning, having boarded the train at Walker. According to his own story he is the victim of "King's Evil," and was in pitiable condition from drug poisoning. Never before in this village was there such a condition presented to the local officers. He was broke, down and out. His arms and body were covered with horrible sores. He told the story of his life, but due to his condition little credence was placed in the story, although his body is unmistakable evidence that part of it was true. He proved to be the son of a man in Nyemore, who repudiated the boy when called up by the county attorney. He was temporarily apprehended because he was considered dangerous to the public health of this community. The health officer reported the case to the State Board of Health. He was fed and cared for during the day by the village officers and delivered in the evening to an officer at Bemidji.

This is a case for thorough investigation by the proper state authorities.

Surely there must be some protection from such a menace.

A trainload of dynamite in the local yards would not be more dangerous to health. It left to mingle among the people he could do more damage to health in one day than could be repaired in a hundred years.

That is the story of Somebody's Boy. And the terrible disease breeding sores, the filthy body, the pale, haggard countenance, emaciated form, eyes protruding from their sockets—all went to prove a part of his story, at least.

Here is part of his story in a nutshell:

Mother and father divorced; entered in the Canadian army about

## BOARD WINDING UP SHIP VENTURE

Plans Made for Settling Claims Resulting From Wooden Vessel Building.

## ABANDONS INDUSTRY

Chairman Hurley Agrees to Make Concessions for Investments in Yards as Well as All Contracts Cancelled.

Washington, March 26.—At a conference between the shipping board and representatives of 34 yards in 13 states on the Atlantic and Gulf coasts plans for winding up the government's war venture in wooden ships were made.

"Reasonable concessions," in payment of claims made for investments in yards as well as for cancelled contracts were promised by Chairman Hurley and prompt settlement was assured. General Manager Plez of the Emergency Fleet corporation will be given authority tomorrow to close the government's accounts with the builders as soon as the claims are properly certified and no more contracts for wooden ships will be let.

Claims Aggregate \$3,000,000.

With the government's retirement from the wooden ship industry, one of the developments of the national emergency virtually will be abandoned, according to the builders.

Claims for losses due to the creation as a war measure of shipyards which now will have to be scrapped as worthless, are expected to aggregate not more than \$3,000,000. It has not been possible to estimate the amount necessary to settle contract claims, because inventories of expenditures for material and labor have not been made.

A total of more than \$100,000,000 in contracts has been cancelled and in many instances work had not begun, so the amount to be paid by the government will be correspondingly less.

Builders Express Satisfaction.

Satisfaction with the action of Chairman Hurley and his associates was expressed by representatives of the yards who later at a separate meeting discussed plans for presenting their claims. Each yard will act independently.

The ship builders were frank in stating that the decision of the Shipping board to confine its future construction to steel vessels, meant that at least 98 per cent of the facilities for building wooden ships would be useless in the future. A total of 183 ways was represented at the meeting, nearly all of which will be abandoned or torn away to permit the use of the land for manufacturing and other purposes. Vessels now on the ways will not be completed orders having been given to finish only the hulls, which probably will be used as barges.

Company's Pet Assured of Good Qualities, Though He Wasn't Equal to Fighting Monkeys.

Three companies of colored engineers at a big medical supply depot somewhere in southern France have three mascots of which they think the world. One is Bobo, the baboon. One is Smoke, a little black French dog. One is Peoria, a lit' yaller dog—a real O. D. brindle.

Bobo is no respecter of persons. He will climb all over his top sergeant with the unholly glee of a fussy inspecting officer and rough him to a fare-you-well. But his main penchant seems to be for pulling little dogs' ears, a trait bitterly resented by the guardians of Smoke and Peoria, but fitting with delight his own adherents.
